N.B.—Regimental quartermaster-serjeants, orderly-room serjeants, serjeant-drummers, serjeant-cooks, company serjeant-major instructors of musketry, company serjeant-major drill instructors, band serjeants and serjeant-tailors, are armed and accoutred as staff-serjeants.

Armourer-serjeants attached to infantry battalions will be armed and equipped as laid down in Equipment Regulations, Part 2, Section IV.

In a battalion of Guards the band will not proceed on active service, but the two extra company serjeant-majors (drill serjeants) included in peace establishments take the place of the band serjeant and band corporal, and 20 privates replace the bandsmen. The two company serjeant-majors (drill serjeants) are armed and equipped in peace and war as staff-serjeants.

Intrenching Implements for Peace Instruction.

The picks, shovels, and bill-hooks stored in mobilization equipments under Table 12 may be used annually for purposes of peace instruction in intrenching.

They should be carefully overhauled immediately upon the conclusion of each season's peace training and replaced in mobilization equipments, any which have become unserviceable being at once exchanged. They must be thoroughly cleaned by the unit, the cutting edges placed in good condition and all metal portions greased before being stored away.

Tools forming part of mobilization equipments are on no account to be used for general purposes in peace. Picks and shovels required for general barrack use will be drawn and held on inventory; when required for general use in camp, they should be demanded with other camp equipment.
